

The Herald

THE DAILY HERALD is the only daily paper published between Winnipeg and Vancouver, and is guaranteed to be larger than any other paper in the Territories. It is published at the rate of \$7.50 a year, 25 cents a week.

THE WEEKLY HERALD published every Thursday morning in time for all outgoing mails, and is guaranteed to be larger than any other paper in the Territories. It is published at the rate of \$7.50 a year, 25 cents a week.

THURSDAY, MARCH 11, 1907.

WANTED—SOME CRITICS

The report from Ottawa that Premier Hanlin is in that city for the purpose of asking for an increased subsidy and more extended powers for the North West Assembly has drawn the attention of the eastern press to the condition of affairs existing in the Territorial Legislature. We can, of course, readily understand that an executive like ours which is practically autocratic and never subjected to criticism of any kind would naturally be an object of curiosity elsewhere, and it is undoubtedly the fact that in the Territories the Executive, which is literally beyond criticism, is practically beyond criticism, practically does just exactly as it pleases, as well in the house as outside it, and that the suggestions of private members, which cannot by any means be called criticism are invariably couched in language which suggests that the Executive has the King "can do no wrong." It is moreover the fact that the proceedings of the Assembly have been lately of the dulllest possible character, and that a little fair and honest criticism is distinguished from factional opposition would be productive not only of greater liveliness in the proceedings of our Parliament, but of practical and immediate benefit to our legislators and to ourselves. We must not be understood to suggest that there is any serious reason for fault finding, but we do maintain that there is a good deal of room for improvement in the administration of Territorial affairs. Criticism, properly so called, never does any harm. If it is deserved, those who are criticised are directed may derive much benefit from it, and when undeserved, it only vindicates the position of the person criticised.

Now that an effort is being made to increase the amount of the Federal grant, it is more than seemly that the public accounts of the Territories should be laid as published. The public are entitled not only to know, but as a matter of right to a detailed account of the expenditure incurred by the Legislature during each year, but so far as our account has appeared for the year 1906. The Auditor General's report is absolutely valueless as a check on the Territories' distribution of public money, and as such it is a matter of common knowledge that the Legislature has grave abuses in this direction, it would have been expedient as well as just to have furnished information showing the extent of these abuses, and to provide a means of exposing any other possible misappropriation. These accounts, it may be said, are usually reviewed by the Public Works Committee of the Assembly, but such a review of a particular district can tell more easily whether work charged for in that district has been actually done, and paid for, than a committee at headquarters, who have no means of verifying the accounts, other than by the accounts themselves. The explanation given for the non-publication of the accounts is that they are confidential, and would certainly not be accepted if there were in the assembly even one or two members who were able and courageous enough to speak out plainly their opinion of the suppression. The publication of these accounts, we are told, is being withheld for lack of funds, although it would not require a very high financial training to be able to point out where the money for this most necessary purpose could be provided by the institution of a more economical salary list or more judicious and if

necessary a reduced expenditure in other less merited directions.

What is really needed in the Assembly is an opposition or, at least, a few men able and willing to criticize the action of the Executive, where such criticism is necessary and for the public good. The members of the Assembly today are no doubt honest men actuated by a desire to administer the Territories according to their best judgment. But while such qualities are most desirable, something more is needed. The present system of allowing a large number of unelected and unaccountable members to become law without comment, either through business or lack of knowledge, or in order to gratify the ambition of private members, and so disown opposition to one's own schemes, has resulted only in the accumulation of an enormous supply of a poor quality of waste paper. The presence in the House of an entirely non-political party, whose well meant criticism would assist in promoting what was good and preventing what was bad, would surely be improvement. There are in the present Assembly many able and honest men, but there are not half a dozen at the outside who pretend to the possession of any debating power. The Premier, who is the only body to oppose, the Premier "runs the whole show" whenever he chooses to exert himself, and his plausible explanation of matters which he thinks in his territory to himself demand some explanation is the only explanation that is given by a grateful House. But, if he knew that he had to face men who would insist on the explanation of every action of his, he would have to give a more satisfactory explanation of his actions.

But, if he knew that he had to face men who would insist on the explanation of every action of his, he would have to give a more satisfactory explanation of his actions. But, if he knew that he had to face men who would insist on the explanation of every action of his, he would have to give a more satisfactory explanation of his actions.

CANADIAN TRADE

The official returns of the trade of Canada for the last fiscal year were made public a couple of months ago. Fuller details are being made available in the form of statements since compiled for Parliament by the Customs Department. These figures show that our trade with our various foreign countries are perhaps the most interesting. It is interesting to note that the present year's trade with the United States is the largest in our history. Our trade with the United States is the largest in our history. Our trade with the United States is the largest in our history.

Our trade with the United States is the largest in our history. Our trade with the United States is the largest in our history. Our trade with the United States is the largest in our history. The Regina Leader refers to the resolution of the Calgary City Council in reference to the enlargement of Manitoba as an "inhibition of pre-emptive privilege." It need only be said by way of reply that no thinking man will see either presumption or impropriety in an expression of opinion by the Council of the first and by far the largest of the Territories on a question which immediately concerns the city and the large district tributary to it. The editorialism of the Leader is altogether due to the fact that any redistribution would result in the reduction of Regina to the original condition in which Mr. Dewdney found it, and the locating of the seat of government of the western portion of the Territories to Calgary where it properly belongs. But if Alberta were to be annexed to British Columbia, which is not at all impossible, we should expect almost the same sympathy from Regina which we now feel for Victoria and its Leader.

Things in Crow's Nest Road are comparatively dull when compared with the discussion on the Crow's Nest Road by the Toronto papers.

The Attorney General of Manitoba has defined an offensive party to be "a party to which is attached a large number of persons who are very offensive to other parties not in power will be their turn by and by."

William McKinley is today the first citizen of the United States. He is the first citizen of the United States. He is the first citizen of the United States. He is the first citizen of the United States. He is the first citizen of the United States.

A FIGHT FOR LIFE

EXPERIENCE OF MR. SAMUEL SPARKS OF NAPANE.

A Terrible Sufferer from Sciatic Rheumatism—At Times as Helpless as a Child—The Trouble Aggravated by the Weather—The Doctor Said Was Consumption of the Blood, and No Hope of Recovery Was Held Out.

The life of one afflicted by rheumatism is at times almost unbearable. The doctor who is racked with pain will think even death would be a relief from his painful malady. Among the "well known" men and women of the world, who suffered much and found relief in the use of Dr. Williams' Pink Pills for Pale People, is a gentleman named Mr. Samuel Sparks, of Napane, Ontario. He was a man of great energy and vigor, and was a member of the local militia. He was a man of great energy and vigor, and was a member of the local militia.

Mr. Sparks was a man of great energy and vigor, and was a member of the local militia. He was a man of great energy and vigor, and was a member of the local militia. He was a man of great energy and vigor, and was a member of the local militia.

Get What You Ask For.

Certain Druggists Who Bring Reproach Upon Their Business by the Palming Off of "Substitutes" on the Public.

When a person goes to a drug store for a standard remedy, and the druggist tries to palm off some other preparation of a pretended similar nature, urging the customer to buy the latter concoction on the plea that "it is just as good" or "really better" than the standard remedy called for, it is proper to avoid that drug store ever afterwards.

The profit to the druggist on the standard preparations is not large. The few remedies that the whole world recognizes as most reliable, prepared by able physicians and chemists, with every facility of modern science at their command, cost a great deal more than the cheap substitutes. The druggist who prepares these remedies has produced a tremendous amount of capital is invested in the laboratory where the remedies are made. They have gained their reputations by the great good they have done in curing disease and relieving pain. It costs a great deal more to keep up their necessary expense.

The unscrupulous and generally ignorant druggist referred to, sees a man to make a big profit by vixing together a number of cheap ingredients, giving the mixture a name, and taking advantage of the gullibility of some people, who seem to like to experiment with their health. There is in fact a concern that supplies to druggists this kind of stuff—always the same, never the best. The druggist who sells labels to suit the druggist's idea of what label will most easily "catch" the customer. These preparations are frauds, and are never advertised, because they will not bear the light of any public investigation.

John Street, Glasgow, Seven Years.

Mr. J. C. Templeton is known all over Alberta as one who "gives a customer exactly what he asks for." It is one of the rules of the drug store and is never varied from. It is one of the rules of the drug store and is never varied from.

WAR TALK

BULGARIA AND SERVIA ARE PREPARING FOR WAR

Russian Troops Massed on the Turkish Frontier: Excellent Getting Into Greece: Supplies and Ammunition at Thessaly - A Division of the Fleet

LONDON, March 4.—While the latest news from Athens indicates the grave fears that Greece will refuse to comply with the demand of the powers to withdraw her troops and fleet from Crete within six days, dating from news on Tuesday, indicating to admit a policy of desperation, it is still generally recognized that the measures proposed by the powers, including the granting of autonomy to Crete under the suzerainty of the Sultan of Turkey, are the best that Europe could have adopted in view of the present complicated circumstances when the whole Balkan peninsula is ready to ask an equivalent for anything obtained by Greece.

LONDON, March 4.—An Athens despatch says that Bulgaria and Serbia are preparing for war. Bulgarians want quickness of action in the question of Crete, and the Greek fleet and army are in excellent condition and ready for emergency.
